

Systems Administrator

FITS is seeking a Systems Administrator to support Anne Arundel County. The Systems Administrator will work within the IT department to develop, support, and manage AWS cloud resources and on-premise Microsoft Windows and Linux infrastructure. The Systems Administrator will play a significant role in the migration of County on-premise resources to AWS.

This is a full-time position located onsite in Annapolis, MD.

Essential Duties and Responsibilities

- Provide hands-on expertise for the installation, configuration, maintenance, and repair of the County's on- premise physical and virtual Microsoft Windows resources (DNS, DHCP, certificates).
- Provide hands-on support for the deployment, operation, and management of AWS virtual servers and services.
- Deploy integration of County on-premises and AWS cloud network infrastructure and services, supporting the County's migration to AWS.
- Manage the County's Microsoft Active Directory resources including GPO, software configuration, and security
- Provide hands-on support for the County's Symantec SEP infrastructure
- Provide hands-on application support for the County's Gmail resources

Position Qualifications

- Associate degree and/or one or more of the following certifications is preferred, or equivalent expertise and experience: Microsoft Certified Systems Engineer (MCSE), AWS Certified Solutions Architect, AWS Certified SysOps Administrator, and/or AWS DevOps Engineer Professional
- 3+ years' of experience in information technology

Technical Qualifications

- MS Windows desktop/server
- Linux
- VMware
- Active Directory
- AWS architecture and operations
- Windows network infrastructure (DNS, DHCP, GPO)
- Symantec SEP

How to Apply
